3.4.1-3. Design of Traffic Island

The students of Appasaheb Birnale College of Architecture, Sangli, designed the traffic island at College Corner, Sangli city with the guidance of their teachers. The aim of this project was to improve the traffic flow in the area and make it safer for pedestrians and motorists. The island was designed in a way that it not only served its functional purpose but also added to the aesthetic value of the surroundings. This project provided the students with practical experience in urban design and planning, and helped them to contribute to the development of the local community.
