**1. IQAC quality check mechanism -(Internal Quality Assurance Cell) /  
College Development Committee check mechanism**

**V/C. PRINCIPAL,  
APPASAHEB BIRNALE COLLEGE  
OF ARCHITECTURE, SANGLI.**

## **1. IQAC quality check mechanism -(Internal Quality Assurance Cell) / College Development Committee check mechanism**

**Internal Quality Assurance Cell** is an important mechanism for ensuring quality in higher education institutions, including architecture colleges. **The IQAC cell was established on 23.02.2023 in A.B.College of Architecture, Sangli.**

**Before IQAC, the institute development plans were followed up by the College Development Committee.**

**The College Development Committee (CDC) is responsible for the overall development of A.B.College of Architecture, Sangli.( ABCA,Sangli) In ABCA, the CDC has the following check mechanisms:**

### **1. Curriculum Development:**

The CDC oversees the development of the curriculum for the architecture program. They ensure that the curriculum is up-to-date, relevant, and meets the industry standards. The CDC reviews the course content, delivery methods, and teaching materials.

### **2. Faculty Development:**

The CDC also oversees the professional development of faculty members. This includes organizing workshops, seminars, and training sessions to update the skills of the faculty members. The CDC also reviews the performance of the faculty members and provides feedback.

### **3. Infrastructure Development:**

The CDC monitors the infrastructure development of the college. This includes the construction of new buildings, renovation of existing buildings, and the procurement of equipment and materials. The CDC also ensures that the college has adequate resources to support the teaching and learning activities.

### **4. Student Welfare:**

The CDC also monitors the welfare of the students. This includes the provision of counselling services, healthcare facilities, and accommodation. The CDC also reviews the disciplinary policies of the college and ensures that they are fair and just.

### **5. Finance and Administration:**

  
**V.C. PRINCIPAL,  
APPASAHEB BIRNALE COLLEGE  
OF ARCHITECTURE, SANGLI.**

The CDC also oversees the financial and administrative aspects of the college. This include preparing budgets, managing funds, and ensuring compliance with legal and regulatory requirements. The CDC can also review the performance of the administrative staff and provide feedback.

In summary, the CDC has a range of check mechanisms in A.B.College of architecture, Sangli, including curriculum development, faculty development, infrastructure development, student welfare, and finance and administration.

**The IQAC quality check mechanism in an A.B.College of Architecture College will include the following:**

**1. Setting quality standards:**

The IQAC will set quality standards for various aspects of the ABCA, such as teaching, research, infrastructure, and student support services. These standards can be based on national and international benchmarks and best practices.

**2. Monitoring and evaluation:**

The IQAC will monitor and evaluate the performance of ABCA in relation to the quality standards set. This can be done through regular audits, reviews, and feedback from stakeholders such as students, faculty, and employers.

**3. Continuous improvement:**

The IQAC will facilitate continuous improvement by identifying areas of improvement and developing action plans to address them. This will involve providing training and support for faculty members and staff, and investing in Infrastructure and resources to enhance the quality of teaching, research, and student support services.

**4. Documentation and reporting:**

The IQAC will maintain documentation and reporting systems to track the progress of quality improvement initiatives and to provide regular reports to stakeholders. This can help to build trust and confidence in the quality of ABCA and enhance its reputation.

**To implement the IQAC quality check mechanism, A.B.College of architecture will take the following steps:**

**1. Establishment of an IQAC**

**committee:** ABCA has established an IQAC committee comprising

**V.C. PRINCIPAL,**  
**APPASAHEB BIRNALE COLLEGE**  
**OF ARCHITECTURE, SANGLI.**

faculty members, administrators, and external experts to oversee quality assurance initiatives.

2. **Development of a quality policy:** The IQAC will develop a quality policy that outlines the college's commitment to quality and sets out the standards and procedures for quality assurance.
3. **Conduct self-assessment:** The IQAC will conduct a self-assessment of the ABCA's performance in relation to the quality standards set, and will develop an action plan for improvement.
4. **Engagement of stakeholders:** The IQAC will engage stakeholders such as students, faculty, alumni, and employers in quality assurance initiatives, and seek their feedback and suggestions for improvement.

By implementing an effective IQAC quality check mechanism, A.B.College of architecture can ensure that it will provide high-quality education and services to their students, and continuously improve its performance to meet the changing needs and expectations of stakeholders.
